Foreign exchange gain of US\$6.7 million for the six months ended June 30, 2021, increased from a loss of US\$7.8 million for the same period in 2020. The gain was attributed to changes in the RMB/USD exchange rates and the revaluation of monetary items held in Chinese RMB.

Interest and other income of US\$3.5 million for the six months ended June 30, 2021 decreased from US\$5.4 million for the same period in 2020. The decrease in 2021 was primarily attributed to the sales of lead-zinc ore at the Jiama Mine in 2020.

Income tax expense of US\$14.9 million for the six months ended June 30, 2021, increased by US\$15.0 million from a credit of US\$0.1 million for the comparative period in 2020. During the current six months period, the Company had US\$9.4 million of deferred tax credit compared to US\$1.9 million for the same period in 2020.

Net income of US\$157.7 million for the six months ended June 30, 2021, increased by US\$147.8 million from US\$9.9 million for the six months ended June 30, 2020.

NON-IFRS MEASURES

The cash cost of production is a measure that is not in accordance with IFRS.

The Company has included cash production cost per ounce gold data to supplement its consolidated financial statements, which are presented in accordance with IFRS. Non-IFRS measures do not have any standardized meaning prescribed under IFRS, and therefore they may not be comparable to similar measures employed by other companies. The data is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance, operating results or financial condition prepared in accordance with IFRS. The Company has included cash production cost per ounce data because it understands that certain investors use this information to determine the Company's ability to generate earnings and cash flow. The measure is not necessarily indicative of operating results, cash flow from operations, or financial condition as determined under IFRS. Cash production costs are determined in accordance with the Gold Institute's Production Cost Standard. Although the Gold Institute ceased operations in 2002, the Company believes that the Gold Institute's Production Cost Standard continues to represent the market accepted standard for reporting cash cost of production. However, different issuers may apply slight deviations to the standard so the cash production costs disclosed by the Company may not be directly comparable to other issuers.

The following tables provide a reconciliation of cost of sales to the cash costs of production in total dollars and in dollars per gold ounce for the CSH Mine or per copper pound for the Jiama Mine:

MINERAL PROPERTIES

The CSH Mine

The CSH Mine is located in Inner Mongolia Autonomous Region of China (Inner Mongolia). The property hosts two low-grade, near surface gold deposits, along with other mineralized prospects. The main deposit is called the Northeast Zone (the “Northeast Zone”), while the second, smaller deposit is called the Southwest Zone (the “Southwest Zone”).

The CSH Mine is owned and operated by Inner Mongolia Pacific Mining Co. Limited, a Chinese Joint Venture in which the Company holds a 96.5% interest and Ningxia Nuclear Industry Geological Exploration Institution holds the remaining 3.5%.

The CSH Mine has two open-pit mining operations with a combined mining and processing capacity of 60,000 tpd. The run-of-mine ore is heap leached with cyanide solution to extract gold and electro-wonned to produce a gold dore which is sold to refiners.

In July 2019, CSH updated its mine plan based on a result of latest ultimate limit optimization, in which the production rate was reduced to 40,000 t/d with a life of mine (“LoM”) of seven years as of 2019.

In June 2020, the operation of southwest pit ended.

Exploration

Two geological exploration programs were conducted at CSH in 2020 to increase mineral resources to upgrade categories. In the first quarter of 2021, the drilling was completed. A total of 7 drill holes with 4,654.35m were completed at the southwest zone, and a total of 26 drill holes with 17,167.50m, including one hydro-geological hole with 755.50m, were executed at the northeast zone. In the second quarter of 2021, the company focused on the data processing, interpretation and modeling work based on the 33 drill holes amounting to 21,821.85m completed at the southwest and northeast zones in the first quarter of 2021.

During the year ended December 31, 2020, there was a construction contract dispute between independent third parties including the constructor, Huaxin Construction Group Co., Ltd. (formerly named as "Nantong Huaxin Construction Group Co., Ltd.") ("Huaxin") and the developer, Zhongxinfang, and the Group's subsidiary, Tibet Huatailong Mining Development Co. Ltd. ("Huatailong"). The land use right was transferred to Zhongxinfang in 2019 pursuant to the cooperation agreement signed between Zhongxinfang and Huatailong in 2019 in relation to the transferring of land use right in return of a block of the buildings and twenty car parks (the "Land Exchange").

Based on the cooperation agreement, Zhongxinfang is obligated to deliver a block of the buildings and twenty car parks (the "New Premises") to the Group no later than 2021. As at June 30, 2021 and up to the date these condensed consolidated financial statements are authorised for issue, the composite project is still suspended due to litigations against Zhongxinfang and the New Premises is not delivered to Huatailong on May 31, 2021, the original contractual delivery date. The construction of the New Premises is substantially completed pending for installation of plumbing, electrical wiring, interior walls and decoration. On June 21, 2021, Huatailong applied for pre-litigation preservation of the New Premises from Zhongxinfang, the Intermediate People's Court of Lhasa City, Tibet, adjudicated that the value of New Premises limited to RMB137 million (equivalent to US\$21 million) from Zhongxinfang was frozen for two to three years (the "New Premises Pre-litigation Preservation"). On July 21, 2021, pursuant to the New Premises Pre-litigation Preservation, Huatailong proceeded a lawsuit against Zhongxinfang for the delivery of New Premises and penalty amounting to RMB5 million (equivalent to US\$773K). Based on Group's assessment on the completion status of the New Premises, the Group has first priority of claim over the New Premises under New Premises Pre-litigation Preservation, the construction of the New Premises has been substantially completed and there has been no significant market value decline of comparable properties during the current period. Accordingly, no impairment loss (2020: nil) has been made on the other non-current assets as the management of the Company are of the opinion that the recoverable amount of the non-current assets is above its carrying amount of US\$19,389,000 (equivalent to RMB125,252,000) as at June 30, 2021.

In addition, during the year ended December 31, 2020, Huatailong has been subject to tax and other surcharges in relation to Land Exchange amounting to RMB60,104,000 (equivalent to US\$8,714,000) which Huatailong expects to recover such payments from Zhongxinfang in accordance with the cooperation agreement between Huatailong and Zhongxinfang signed in 2019. On July 8, 2020, Huatailong applied for pre-litigation preservation of assets from Zhongxinfang, the Intermediate People's Court of Lhasa City, Tibet, adjudicated that the value of properties limited to RMB46 million (equivalent to US\$6,609,000) from Zhongxinfang was frozen for one year (the "Pre-litigation Preservation"). Based on the first instance adjudication dated November 20, 2020 in relation to the lawsuit against Zhongxinfang for the recoverability of the tax and other surcharges (the "Tax and Other Surcharge") paid by Huatailong, which became final adjudication upon expiry of appeal application in December 2020, the litigation ruling adjudicated that Zhongxinfang shall repay the Tax and Other Surcharge of RMB46 million (equivalent to US\$6,997,000) to Huatailong (the "November Adjudication") within 30 days from the effective date of the November Adjudication (the "Due Date"). As Zhongxinfang has not settled such amount within the Due Date, Huatailong applied for an enforcement of the November Adjudication in January 2021 (the "Enforcement"). On June 24 2021, the Intermediate People's Court of Lhasa City, Tibet, adjudicated the Enforcement is suspended as there are no executable properties from Zhongxinfang. Based on legal advice, the Enforcement is currently suspended and the Group's first priority of claim one of the assets under pre-litigation preservation has been extended for three years until May 24 2024. Furthermore, in order to recover Tax and Other Surcharge from Zhongxinfang, Huatailong has applied for participation of enforcement procedures over assets sealed up together with the other plaintiffs, which the Higher People's Court of Lhasa City is going to start the auctions of the assets. The Group will also reapply for enforcement when there is executable properties of Zhongxinfang being made available.

In the opinion of the management of the Company, expected credit loss on other receivables is insignificant based on the credit risk assessment for the three and six months ended June 30, 2021. Based on the best available information to the Group as of June 30, 2021, the Group estimated that the fair value of total assets owned by Zhongxinfang exceeded the outstanding liabilities that the courts adjudicated to Zhongxinfang's plaintiffs. In addition, the Group has first priority of claim over one of the assets under pre-litigation preservation, which has estimated fair value exceeding the carry amount of the other receivable related to the Tax and Other Surcharge.

2. Mineral Reserves were estimated using the following mining and economic factors:
 - Open Pits:
 - a) 5% dilution factor and 95% recovery were applied to the mining method;
 - b) an overall slope angles of 43 degrees;
 - c) a copper price of US\$ 2.9/lbs;
 - d) an overall processing recovery of 88 - 90% for copper
 - Underground:
 - a) 10% dilution added to all Sub-Level Open Stopping;
 - b) Stope recovery is 87% for Sub-Level Open Stopping;
 - c) An overall processing recovery of 88 – 90% for copper.
3. The cut-off grade for Mineral Reserves has been estimated at copper equivalent grades of 0.3% Cu (NSR) for the open pits and 0.45% Cu (NSR) for the underground mine.

LIQUIDITY AND CAPITAL RESOURCES

The Company operates in a capital intensive industry. The Company's liquidity requirements arise principally from the need for financing its mining and mineral processing operations, exploration activities and acquisition of exploration and mining rights. The Company's principal sources of funds have been proceeds from borrowing from commercial banks in China, corporate bond financing, equity financings, and cash generated from operations. The Company's liquidity primarily depends on its ability to generate cash flow from its operations and to obtain external financing to meet its debt obligations as they become due, as well as the Company's future operating and capital expenditure requirements.

At June 30, 2021, the Company had an accumulated surplus of US\$402.3 million, working capital of US\$204.5 million and borrowings of US\$1,133 million. The Company's cash balance at June 30, 2021 was US\$283.8 million.

Management believes that its forecast operating cash flows are sufficient to cover the next twelve months of the Company's operations including its planned capital expenditures and current debt repayments. The Company's borrowings are comprised of US\$297.3 million of 2.8% coupon rate unsecured bonds maturing on June 23, 2023, and US\$110.9 million of short term debt facilities with interest rates ranging from 1.20% to 4.51% per annum arranged through various banks in China. In addition, on November 3, 2015, the Company entered into a Loan Facility agreement with a syndicate of banks, led by Bank of China. The lenders agreed to lend an aggregate principle amount of RMB 3.98 billion, approximately US\$613 million with the interest rate of 2.83% per annum. The People's Bank of China Lhasa Center Branch's interest rate serves as a local benchmark for the interest on the drawdowns. The bank's interest rate is then discounted by 7 basis points (or 0.07%) to calculate the interest on the drawdowns. The loan interest rate was adjusted from benchmark interest rate minus 7 basis points to 5 year loan prime rate ("LPR") less 2% (LPR-2%) in second quarter of 2020. The interest rate of 2.65% shall be applied for the current year after converting. The proceeds from the Loan Facility are to be used for the development of the Jiama Mine. The loan is secured by the mining rights for the Jiama Mine. As of June 30, 2021 the Company has drawn down RMB 3,110 billion, approximately US\$481.4 million under the Loan Facility. On April 29, 2020, the Company entered into a Loan Facility agreement with a syndicate of banks. The lenders agreed to lend an aggregate principal amount of RMB 1.4 billion, approximately US\$197.8 million with the interest rate of 2.65% per annum currently, maturing on April 28, 2034. The company obtained a loan in the aggregate principal amount of RMB400 million with China Development Bank bearing interest at the People's Bank of China Loan Market Quote Rate (1 year) minus 2.65% on April 30, 2020. The current interest rate of the loan is 1.2% per annum. On July 6, 2020, the Company repaid the previously outstanding unsecured bonds issued in 2017 with an aggregate principal amount of US\$500 million and interest expense of US\$8.125 million. The Company believes that the availability of debt financing in China at favorable rates will continue for the foreseeable future. The Company continues to review and assess its assets for impairment as part of its financial reporting processes. 17. CONTINGENCIES

During the year ended December 31, 2020, there was a construction contract dispute between independent third parties including the constructor, Huaxin Construction Group Co., Ltd. (formerly named as "Nantong Huaxin Construction Group Co., Ltd.") ("Huaxin") and the developer, Zhongxinfang, and the Group's subsidiary, Tibet Huatailong Mining Development Co. Ltd. ("Huatailong"). The land use right was transferred from Huatailong to Zhongxinfang in 2019 pursuant to the cooperation agreement signed between Zhongxinfang and Huatailong in 2019 in relation to the transferring of land use right in return of a block of the buildings and twenty car parks (the "Land Exchange").

Based on the cooperation agreement, Zhongxinfang is obligated to deliver a block of the buildings and twenty car parks (the "New Premises") to the Group no later than 2021. As at June 30, 2021 and up to the date these condensed consolidated financial statements are authorised for issue, the composite project is still suspended due to litigations against Zhongxinfang and the New Premises are not delivered to Huatailong on May 31, 2021, the original contractual delivery date. The construction of the New Premises is substantially completed pending for installation of plumbing, electrical wiring, interior walls and decoration. On June 21, 2021, Huatailong applied for pre-litigation preservation of the New Premises from Zhongxinfang, the Intermediate People's Court of Lhasa City, Tibet, adjudicated that the value of New Premises limited to RMB137 million (equivalent to US\$21 million) from Zhongxinfang was frozen for two and three years, respectively (the "New Premises Pre-litigation Preservation"). On July 21, 2021, pursuant to the New Premises Pre-litigation Preservation, Huatailong proceeded a lawsuit against Zhongxinfang for the delivery of New Premises and penalty amounting to RMB5 million (equivalent to US\$773,000). Based on Group's assessment on the completion status of the New Premises, the construction of the New Premises has been substantially completed, there has been no significant market value decline of comparable properties during the current period and the Group has first priority of claim over the New Premises under New Premises Pre-litigation Preservation. Accordingly, no impairment loss (2020: nil) has been made on the other non-current assets as the management of the Company are of the opinion that the recoverable amount of the non-current assets is above its carrying amount of US\$19,389,000 (equivalent to RMB125,252,000) as at June 30, 2021.

17. CONTINGENCIES - continued

In addition, during the year ended December 31, 2020, Huatailong has been subjected to tax and other surcharges in relation to Land Exchange amounting to RMB60 million (equivalent to US\$8,714,000) which Huatailong expects to recover from Zhongxinfang in accordance with the cooperation agreement between Huatailong and Zhongxinfang signed in 2019. On July 8, 2020, Huatailong applied for pre-litigation preservation of assets from Zhongxinfang, the Intermediate People's Court of Lhasa City, Tibet, adjudicated that the value of properties limited to RMB46 million (equivalent to US\$6,609,000) from Zhongxinfang was frozen for one year (the "Pre-litigation Preservation"). Based on the first instance adjudication dated November 20, 2020 in relation to the lawsuit against Zhongxinfang for the recoverability of the tax and other surcharges (the "Tax and Other Surcharge") paid by Huatailong, which became final adjudication upon expiry of appeal application in December 2020, the litigation ruling adjudicated that Zhongxinfang shall repay the Tax and Other Surcharge of RMB46 million (equivalent to US\$6,997,000) to Huatailong (the "November Adjudication") within 30 days from the effective date of the November Adjudication (the "Due Date"). As Zhongxinfang has not settled such amount within the Due Date, Huatailong applied for an enforcement of the November Adjudication in January 2021 (the "Enforcement"). On June 24 2021, the Intermediate People's Court of Lhasa City, Tibet, adjudicated the Enforcement is suspended as there is no executable properties from Zhongxinfang as all of the assets owned by Zhongxinfang have been sealed up or frozen. Based on legal advice, the Enforcement is currently suspended and the Group's first priority of claim one of the assets under pre-litigation preservation has been extended for three years till May 24, 2024, Furthermore, in order to recover Tax and Other Surcharge from Zhongxinfang, Huatailong has applied for participation of enforcement procedures over assets sealed up together with the other plaintiffs, which the Higher People's Court of Lhasa City is going to start the auctions of the assets. The Group will also reapply for enforcement when there are executable properties of Zhongxinfang being made available.

Based on the best available information to the Group as of June 30, 2021, and up to the date of these condensed consolidated financial statements are authorized for issue, the Group estimated that the fair value of total assets owned by Zhongxinfang exceeded the outstanding liabilities that the courts adjudicated to Zhongxinfang's plaintiffs. In addition, the Group has first priority of claim over one of the assets under pre-litigation preservation, which has estimated fair value exceeding the carry amount of the other receivable related to the Tax and Other Surcharge. In the opinion of the management of the Company, expected credit loss on other receivables is insignificant based on the credit risk assessment for the three and six months ended June 30, 2021.
